CONTENTS OF VOLUME 84

Volume 84 Nos. 1–2 May (I/II) 2003

INNOVATIVE TECHNOLOGIES AND POLICIES FOR WASTE MANAGEMENT

Editorial 1–4

B. DENG, L. LAN, K. HOUSTON and P.V. BRADY / Effects of Clay Minerals on CR(VI) Reduction by Organic Compounds 5–18

L.R. CHEVALIER / Surfactant Dissolution and Mobilization of LNAPL Contaminants in Aquifers 19–33

V.M. IBEANUSI, D. PHINNEY and M. THOMPSON / Removal and Recovery of Metals from a Coal Pile Runoff 35–44

C.N. MULLIGAN and R. GALVEZ-CLOUTIER / Bioremediation of Metal Contamination 45–60

A. BRANDELIK and C. HUEBNER / Moisture Monitoring in Waste Disposal Surface Barriers 61–70

H. HILGER and M. HUMER / Biotic Landfill Cover Treatments for Mitigating Methane Emissions 71–84

A.H. ÖREN and A. KAYA / Some Engineering Aspects of Homoionized Mixed Clay Minerals 85–98

M.A. BRESSAN and C.E. DOS ANJOS / Techniques of Remote Sensing Applied to the Environmental Analysis of Part of an Aquifer Located in the São José dos Campos Region Sp, Brazil 99–109

J.C. BUCKLEY and P.M. SCHWARZ / Renewable Energy from Gasification of Manure: An Innovative Technology in Search of Fertile Policy 111–127

C.F. MAHLER and G. SANT' ANNA DE LIMA / Applying Value Analysis and Fuzzy Logic to Select Areas for Installing Waste Fills 129–140

C.S. O'CONNOR, N.W. LEPP, R. EDWARDS and G. SUNDERLAND / The Combined Use of Electrokinetic Remediation and Phytoremediation to Decontaminate Metal-Polluted Soils: A Laboratory-Scale Feasibility Study 141–158

H.I. INYANG, G.F. FISHER and G.E. MBAMALU / A Quantitative Methodology for Indexing Environmental Sensitivity and Pollution Potential 159–173

T. CÁSSIA DE BRITO GALVÃO, V.P. DRNEVICH amd D.G. SCHULZE / A Technique for Cutting Brittle Undisturbed Lateritic Soil Block Samples 175–181

J. SAARELA / Pilot Investigations of Surface Parts of Three Closed Landfills and Factors Affecting Them 183–192

Volume 84 No. 3 June (I) 2003

R. VIJAY and T.A. SIHORWALA / Identification and Leaching Characteristics of Sludge Generated from Metal Pickling and Electroplating Industries by Toxicity Characteristics Leaching Procedure (TCLP) 193–202

S.I. KORFALI and M. MASSOUD / Assessment of Community Noise Problem in Greater Beirut Area, Lebanon 203–218

J.H. VØLSTAD, N.E. ROTH, G. MERCURIO, M.T. SOUTHERLAND and D.E. STREBEL / Using Environmental Stressor Information to Predict the Ecological Status of Maryland Non-Tidal Streams as Measured by Biological Indicators 219–242

A.S. KISHNÉ, E. BRINGMARK, L. BRINGMARK and A. ALRIKSSON / Comparison of Ordinary and Lognormal Kriging on Skewed Data of Total Cadmium in Forest Soils of Sweden 243–263

G. LAMMEL, E. BRÜGGEMANN, K. MÜLLER and A. RÖHRL / On the Horizontal Homogeneity of Mass-Related Aerosol Properties 265–273

C.J. HENNY, J.L. KAISER, R.A. GROVE, V.R. BENTLEY and J.E. ELLIOTT / Biomagnification Factors (Fish to Osprey Eggs from Willamette River, Oregon, U.S.A.) for PCDDS, PCDFS, PCBS and OC Pesticides 275–315

Authors Index 317

Volume Contents 319–320
